The relevant Redemption Amount will be limited to the amount realised from the sale of the Underlying underlying the relevant Note. The Issuer shall, as soon as reasonably practicable thereafter, notify the Noteholders of the same in accordance with section 14 (*Notices*).

### 7.3 Applicable Gold Price Fixing Event

**What are the key risks that are specific to the Issuer?**

- The Issuer's sole business is the raising of money by issuing securities for the purposes of acquiring assets or risks relating to assets generally. Pursuant to the Securitisation Act, claims against the Issuer by the holders of a Note (the "**Noteholders**" and each a "**Noteholder**") will be limited to the net assets of the Compartment. The net assets of the Compartment will comprise (i) the Underlying, (ii) to the extent complementary necessary for purposes of liquidity and cash management non-physical book entry gold at a maximum of 5% of the assets underlying the relevant Series of Notes and (iii) a cash account with an initial cash account amount of zero (the "**Compartment Assets**"). Other than as described in the foregoing, the Issuer will have no funds available to meet its obligations. If the Compartment Assets are not sufficient, there is a risk that the Issuer will temporarily or permanently not be able to fulfil its payment obligations when due and the Noteholders may suffer a loss. The entitlement of the investors is limited to the assets of the Compartment. In particular, the investors have no recourse/claim to any other assets of Opus (Public) Chartered Issuance S.A., including the assets of other compartments or the general assets of Opus (Public) Chartered Issuance S.A., which are not allocated to the Compartment.
- During the term of the Notes, the rights of the Noteholders to be paid amounts due or for delivery of the Underlying under the Notes will be subordinated to discharge of any liabilities towards creditors privileged by law and other liabilities of the Issuer in relation to the Compartment, in particular any administrative costs and the service fee. Any such claim rank priority to the claim of the Noteholders. Payment or delivery of such amounts will reduce the amounts that are available to the Issuer to make payments to the Noteholders.
- The Company is structured to be an insolvency-remote vehicle, but it is under no circumstances insolvency-proof. If the Company fails for any reason to meet its obligations or liabilities, insolvency proceedings might be initiated. In any such circumstances, there is a risk that Noteholders may suffer a loss.
- The Noteholders may be exposed to competing claims of Noteholders of other series of Notes allocated to the Compartment and of other creditors of the Issuer, the claims of which have not arisen in connection with the creation, operation or liquidation of a Compartment if foreign courts, which have jurisdiction over assets of the Company allocated to a Compartment do not recognise the segregation of assets and limited recourse in that respect.
- The Issuer is party to contracts with a number of third parties who have agreed to perform a number of services in relation to the Compartment Assets. In particular, the calculation agent, the paying agent and the depository agent have agreed to provide services with respect to the Compartment Assets. If any such third party fails to perform its obligations under any relevant agreement, the Noteholders may be adversely affected.

### Rights attached to the Notes

#### Interest

#### Redemption

The redemption of the product depends on the performance of the Underlying. The initial gold quantity is dependent on (i) the applicable gold price fixing published by the London Bullion Market Association on the Initial Valuation Date; and (ii) a surcharge as determined by Raiffeisen Switzerland Cooperative, acting as depository agent.

The Notes will be redeemed in case:

(i) Noteholders exercise their option on the Noteholder Exercise Date and demand the delivery of the Underlying in an amount of the Delivery Settlement Quantity on the Delivery Settlement Date (in case a Noteholder is prevented from taking delivery of the Underlying for regulatory or legal reasons applicable to him, such Noteholder may demand from the Issuer that the relevant Note is redeemed at its relevant Redemption Amount); or

(ii) the Issuer exercises its call right, subject to a 180 calendar days' prior notice to each Noteholder, and redeems all outstanding Notes by payment of an amount in USD equal to the Redemption Amount on the Issuer Call Date.

The Issuer shall not be obliged to make payment of the relevant Redemption Amount before the Payment Settlement Date.

**"Delivery Settlement Quantity"**:  $\text{Initial Gold Quantity} * (1 - \text{Fees})^t$

If the Delivery Settlement Quantity cannot be settled entirely by using market-standard gold bars for the Underlying, any amount (being rounded down at the third decimal place) exceeding the amount that can be settled by using market-standard gold bars, will be settled in cash based on the calculation of the Redemption Amount.

**"Redemption Amount"**:  $\text{Initial Gold Quantity} * \text{Applicable Gold Price (t)} * (1 - \text{Fees})^t$

#### Defintions relation to Redemption

**"Applicable Gold Price"**: The gold price based on the applicable gold price fixing (i) in case a Noteholder is prevented from taking delivery of the Underlying, on the 10th business day following receipt of the redemption request by the Issuer, or (ii) in case of an early redemption at the option of the Issuer, on the 8th business day prior the Issuer Call Date. The gold price fixing can be viewed on <https://www.lbma.org.uk/prices-and-data/precious-metal-prices#>>.

**"Applicable Gold Price (0)"**: The Applicable Gold Price as of the Initial Valuation Date plus a surcharge ranging from 0% to 1% as determined by the depository agent in a commercially reasonable manner reflecting the market price of the Underlying. **"Fees"**: The sum of (expressed as a percentage): (i) 0.25% p.a., (the "Issuer Annual Fee"); (ii) 0.13% p.a., (the "Structuring Fee"); and (iii) up to 0.20% p.a., (the "Depository Fee"), whereas each fee shall accrue daily and shall be payable quarterly.

**"Initial Gold Quantity"**:  $(\text{Calculation Amount} / \text{Aggregate Number of Notes}) / \text{Applicable Gold Price (0)}$

**Extraordinary Termination by the Issuer**

If an event of extraordinary termination by the Issuer (such as, without limitation, a state of insolvency, a change in the tax treatment or change in law) occurs, the Issuer will be entitled, however not obliged, to terminate the Notes by giving not more than 30 calendar days notice to the Noteholders against payment of the Redemption Amount.

**Extraordinary Termination by the Noteholders**

If an event of extraordinary termination by the Noteholders (such as, without limitation, the Issuer fails to pay, the Issuer fails to perform any material obligation under the Notes and such failure is incapable of being cured or a state of insolvency in relation to the Issuer) occurs, all Noteholders will be entitled to the early termination of the Notes by giving notice to the Issuer with a copy to the trustee, with the result that all Notes of the Noteholders then outstanding will immediately fall due and payable at their relevant Redemption Amount provided that the Issuer has received such notices from the Noteholders representing at least 25% of Aggregate Number of Notes then outstanding.

**Resolutions of Noteholders**

In accordance with the German Act on Issues of Debt Securities of 2009 (*Gesetz über Schuldverschreibungen aus Gesamtemissionen*) the Notes contain provisions pursuant to which investors may agree by resolution to amend the terms and conditions of the Notes (with the consent of the Issuer) and to decide upon certain other matters regarding the Notes. Resolutions of investors properly adopted, either in a meeting of investors in the Notes or by vote taken without a meeting in accordance with the terms and conditions of the Notes, are binding upon all investors in the Notes. Resolutions providing for material amendments to the terms and conditions of the Notes require a majority of not less than 75 per cent. of the votes cast. Resolutions regarding other amendments are passed by a simple majority of the votes cast.

**Status of the Notes**

The Notes constitute direct and unsubordinated liabilities of the Issuer, secured by security interests granted to Chartered Investment GmbH, Germany, acting as trustee, which rank *pari passu* among themselves and with all other secured and unsubordinated outstanding liabilities of the Issuer in respect of the Compartment, with the exception of any liabilities ranking in priority to the Notes under mandatory law.

The Notes are not subject to deposit insurance.

When issuing the Notes, the Company acts solely for its Compartment 14. All claims and receivables from and under the Notes are limited to the Compartment Assets. If the Compartment Assets are not sufficient to fully satisfy the claims of all investors under the Notes, the Issuer will not be liable to the investors for any shortfall and the investors may not assert any further claims against the Issuer.

**Transferability of the Notes**

The Notes are transferable, subject to offering, selling and transfer restrictions with respect to the United States of America, the European Economic Area, the United Kingdom and the laws of any jurisdiction in which the Securities are offered or sold and the applicable rules and processes of the relevant clearing system.

**Where will the Notes be traded?**

It is intended for the Notes to be introduced in the Open Market of Düsseldorf Stock Exchange and Stuttgart Stock Exchange.

**What are the key risks that are specific to the Notes?**

- The risk of potential losses from future performance is considered high. If market conditions are unfavourable, it is very likely that the Issuer's ability to pay investors out will be affected. This product does not include any protection against future market developments, so that investors could lose all or part of the capital invested. The Notes are linked and concentrated to gold. Prospective investors should note that the value of each Series of Notes will be affected by movements in the price of gold. The performance of a precious metal like gold is dependent upon various factors, including (without limitation) supply and demand, liquidity, natural disasters, direct investment costs, location, changes in tax rates and changes in laws, regulations and the activities of governmental or regulatory bodies, each as set out in more detail below. Precious metal prices are generally more volatile than most other asset classes.

## ISSUANCE-SPECIFIC SUMMARY

OPUS (PUBLIC) CHARTERED ISSUANCE S.A. ACTING FOR THE ACCOUNT OF COMPARTMENT 14

ISIN DE000A3GYU35

- The Notes will not bear any interest. Consequently, Noteholders will not receive any ongoing payments and are not compensated for their investment in the Notes. Noteholders have to rely on the performance of the Underlying in order to receive any return on the Notes.
- The Notes have no final maturity date and will only be redeemed in case (i) the Noteholder exercises its option and demands the delivery of the Underlying in the relevant Delivery Settlement Quantity, or (ii) the Issuer exercises its call right and redeems the outstanding Notes by payment of the Redemption Amount. There can be no assurance that the Redemption Amount will be greater than or equal to the amount invested by a Noteholder in the Note as the Delivery Settlement Quantity and the Redemption Amount are solely dependent in the applicable gold price fixing. Therefore the Redemption Amount may also be zero.
- The terms and conditions of the Notes include provisions which limit the claims of the holders of the Notes to such Compartment Assets that have arisen in connection with a specific series of Notes (the "**Series Assets**"). The rights of the Noteholders in the assets of the Issuer are limited to the Series Assets. The Series Assets will be distributed among Noteholders and the creditors of the Issuer in accordance with the priority of payments set out in the terms and conditions of the Notes. In particular, the Issuer will be required to pay any fees, costs and expenses relating to the Notes prior to making any payment to the Noteholders under the Notes. The Issuer will not be obliged to make any further payments and/or deliveries to any Noteholder in excess of the amounts received upon the realisation of the Series Assets. Following the application of the proceeds of realisation of the Series Assets in accordance with the terms and conditions of the Notes, the claims of the Noteholders for any shortfall shall extinguish and the Noteholders may not take any further action to recover such shortfall. In particular, no Noteholder has the right to petition for the winding-up, the liquidation or the bankruptcy of the Company as a consequence of any shortfall or to take any similar proceedings. Failure to make payment in respect of any shortfall shall in no circumstances constitute an event of default under the terms and conditions of the Notes. Any shortfall under the Compartment shall be borne by the Noteholders.
- If the Noteholders exercise their option and demand physical settlement they will receive the delivery settlement quantity which will be determined in accordance with the terms and conditions of the Notes. There can be no assurance that the value of the Delivery Settlement Quantity will be greater than or equal to the amount invested by a Noteholder in the Notes, particularly if the gold price has not, since the time of investment by the Noteholder, increased sufficiently to offset the reduction of Fees.
- The Redemption Amount will be determined by reference to the Applicable Gold Price. There can be no assurance that the Redemption Amount will be greater than or equal to the amount invested by a Noteholder in the Notes, particularly if the gold price has not, since the time of investment by the Noteholder, increased sufficiently to offset the reduction of the Fees. If the gold price falls to zero or close to zero, investors may lose the entire value of their investment in the Notes.
- A disruption event may occur if there has been a disruption in respect of the trading of gold, including any material suspension, limitation or permanent cessation in respect of the trading and/ or settlement of gold on the over-the-counter market or the temporary or permanent closing of any primary exchange or trading facility for the trading of gold. Noteholders should be aware that the occurrence of a disruption event (and any consequential request for redemption of the Notes postponed or suspended by the calculation agent) may have an adverse effect on the calculation of the Delivery Settlement Quantity and/or timing relating to the early redemption of the Notes.

Noteholder. These cost may include costs relating to the exercise, as charged by the Noteholder's custody bank, costs for the production of gold bullion bars, transportation costs, costs of insurance during transportation, taxes, duties and levies, costs for the completion of a successful anti-money-laundering course.

### **Why is the Base Prospectus being produced?**

The Base Prospectus allows for the Notes issued under it to be offered to the public. The Issuer will use the proceeds from the issuance of the Notes to acquire the Series Assets, provided that the Underlying will consist of physical gold. The estimated net proceeds correspond to the gross proceeds.

The parties involved in the issue and the service of the Notes, as well as their respective affiliates, may receive fees, commissions or other expensed being part of the issue price and may each be affiliates of the Issuer or the same legal entity, and they may each also assume another function in relation to the Notes. As a consequence of such and other relationships, potential conflicts of interests may arise between these parties and the Noteholders. These parties and their respective affiliates may furthermore enter into transactions affecting the Underlying. Any such transactions may have positive or negative effects on the value of the Underlying, and thus on the value of the Notes.

Other than as mentioned above, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer, including conflicting interests.
